

GTEK Laboratory Single/Double Deck Vibrating Screen Brochure

Description

GTEK XSZ-600 Single/Double Deck Vibrating Screen is designed for sizing of materials in laboratories of mining, metallurgy, geology, construction materials, fuel and chemistry industry. It features compact structure, easy operation and reliable performance. This type of screen can classify materials into two or three size fraction upon specific demands.

Technical Specification

<i>Deck Number</i>	2
<i>Screen Size (mm)</i>	600×300
<i>Screen Mesh (mm)</i>	Φ5, Φ7
<i>Sieve Body Inclination (°)</i>	11.5
<i>Feeding Size (mm)</i>	0-40
<i>Vibration Amplitude (mm)</i>	2-4
<i>Vibration Frequency (times/min)</i>	1400
<i>Processing Capacity (kg/hr)</i>	4-10
<i>Motor Power (kW)</i>	0.15
<i>Overall Dimensions (mm)</i>	124
<i>Weight (kg)</i>	1100×750×900
